E-TUTORS PORTAL PROJECT
Nr. PT/05/B/F/NT-159110

E-Tutors Portal

The Portal for Tutors and Trainers on e-Learning

from Leonardo
to Laptop

from Leonardo
to Air Bus A380

Programme

This project has been funded with support from the European Commission. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

www.etutors-portal.net

This multilingual portal is intended to help organisations, trainers, tutors and anyone wishing to involve on e-Learning projects, quickly identify the challenges involved and develop sustainable responses to increase the probability of success on implementing their e-Learning plans.

PORTAL OBJECTIVES

Accessible – Collaborative – Multilingual – Informative

For what

The objective of this portal is to assist new and existing e-Tutors find validated e-Learning resources to support them in the development of their competencies, their eLearning materials and/or the delivery of their courses.

The portal developers have and will continue to examine the vast range of e-Learning materials available on the web and to validate those in terms of relevance and modernity for inclusion on the portal.

As anyone who engages in a Google search knows the results can be overwhelming and often of poor quality or relevance to their specific needs. The portal developers have identified focused resources based on an adapted Google search approach to ensure that portal users can access more focused resources.

The portal also serves as a forum for registered users to discuss ideas and exchange experiences such that communities of practice can grow around areas of common interest.

Why join

The e-Tutors portal is intended to highlight best practice models in Europe for e-Learning so if you wish to put forward suggestions for such models or learn more about them please join and do so.

By joining the portal you enter a community of like-minded professionals who are dedicated to cutting through the mass of mediocrity on the web to help ensure the propagation of excellence in e-Learning.

Portal Areas

E-Tutors Portal is structured on several areas concerning e-Learning: Pedagogy, Technologies, Standards, Tools and Delivery, Networks, Quality and Costs, Courses, Work Based, Blending Learning, Communities, Content Knowledge Management. Other e-learning areas of interest can be added.

For whom

Tutors, Trainers and Teachers.

Companies Managers and responsible for Continuous Vocational Training and in particular Training and Education Technicians from Metal and Electronics sectors.
